

Flowers and Fruits Stained Glass Pattern Book (Dover Stained Glass Instruction)

The simple elegance and great eye appeal of these 67 copyright-free designs by stained glass artist Carol Krez make them perfect for many different kinds of stained glass projects. A row of tulips, branches of plums and apples, California poppies, rose and dahlia blossoms, and a spectacular rhododendron bloom are just a few of the beautifully rendered subjects. Even beginning stained glass workers can undertake these designs successfully. Clearly outlined and easy to follow, most are in popular shapes ? squares and rectangles, principally ? and many have borders or grids that add visual interest to the basic motif.
