

## Travel Smart: Hawaii

Pick up most travel guides and you'll find a directory-long lists of restaurants, hotels, and museums. But Travel Smart: Hawaii has everything figured out (no matter what you like), with driving directions, scenic routes, lots of maps, and only the best places to see. Best of all, author Greg Ambrose lived in Hawaii for over 20 years, so he knows what he's talking about. He takes you beyond the typical tourist spots to cover both the large, well-known attractions and the smaller, more secluded places. Written like advice from a well-traveled friend, with easy-to-follow maps and all the essential information you'll need, Travel Smart: Hawaii is the next best thing to a personal guide.
