

Revitalized (The High Arc Book 1)

Two years of seclusion has a way of changing you, especially when all you can do is try to get out of bed every day. After a shocking diagnosis and her parents disappearance, Alexa dove into her own world of routine and medication. Against her own wishes, the fates decide it is time for her to step back into reality, only the world she is reentering is not the one she remembers. Her grandmother leaves her with a cure for her disease and many unanswered questions. And a new presence challenges her to come out of her solitude. Who is this guy with those captivating grey eyes and energy that draws Alexa into him? He has the answers she looks for, but is she ready to follow him to uncover them?
