

Alices Adventures in Wonderland (Timeless Classics)

Alice is feeling bored while sitting on the riverbank when she notices a talking, clothed White Rabbit with a pocket watch running past. She follows it down a rabbit hole falling a long way to a curious hall with many locked doors of all sizes. The tale plays with logic, giving the story lasting popularity. Its narrative and structure, characters and imagery have been enormously influential in popular culture and literature, especially in the fantasy genre.
