

Angel of Mercy

Its only when her father dies that Eden learns her whole life has been a sham. Her father is not her father. Did her mother lie to convince him the baby was his? Did he know the truth? Why didnt he say anything to Eden? With her life in shambles, she decides to go back to the town where her mother graduated from high school and see if she can find the truth 25 years later. Feeling vulnerable, she goes undercover as part of a research project affiliated with Harvard University, and begins digging up old dirt. Some secrets want to stay hidden and some want to be unearthed. The lies begin to unravel and a terrible truth emerges, one that is too fantastic to believe. Eden doesnt believe in ghosts, but she cant help believing this story.
