Le Bravo fut projeté pendant un séjour de courte durée à Venise, dans le printemps de 1830. Les grands événements politiques qui se propageront depuis dans toute l'Europe, et qui sont probablement destinés à produire encore de grands changements, ne faisaient alors que germer ; rien n'était apparent que ces éternels principes dont la tendance est toujours vers la vérité. Cet ouvrage fut écrit principalement à Paris, où les occasions ne manquèrent pas d'embellir le sujet, par les observations que l'auteur était journellement à même de faire sur le goétisme et l'ambition se jouant des espérances les plus justes des peuples, abusant de leur confiance et spéculant sur leur énergie. Extrait : Je suis à Venise sur le Pont des Soupirs, entre un palais et une prison ; je vois soudain sortir la ville du milieu des vagues comme par l'effet du coup de baguette d'un enchanteur. Dix siècles étendent leurs sombres ailes autour de moi, et une gloire mourante sourit à ces temps éloignés où maintes contrées subjuguées admiraient les monuments de marbre du lion ailé de Venise, qui avait assis son trône au milieu de ses cent îles.
