

## Breaking Free: Una Familia Segura

Anna Rosa Castillo is unlike most 16 year old girls. She doesn't care for clothes or make up, nor does she giggle with her friends about hot guys. Coming from a small town in the North of England, where drugs and criminals are at the top of the food chain, Anna's life is an impossible mixture of pain and sorrow. Drawing and tattoos are her only way of escaping the tortures that consume her at home. She lives by only one rule - do whatever he says, and she might live long enough to get away. All that changes when a fatal night lands the monster of her nightmares in a prison cell and herself in a hospital bed, staring into the eyes of a father she has never known. The addition of a father and family turns Anna's life upside-down, thrusting her into a world she could never understand. Inner demons and unspeakable memories claw at her as she tries to build a relationship with her new family. But with her past looming over her new life, will she be able to break free?
