

## Houston 2000: People, Opportunity, Success

Photographed by native Houstonian Jim Olive, *Houston 2000: People, Opportunity, Success* features more than 150 brilliantly lit photographs to chronicle every major segment of Houston's economy—energy, health care, space, technology, trade, transportation, small business—as well as the region's major attractions such as the Theater District, Museum District, Memorial Park, festivals, the Houston Livestock Show & Rodeo and more. Through its photographs, the book documents Houston's growth from its early days as a hub for cotton and oil at the beginning of the 20th century to its role today as the energy capital of the world, a health care colossus, and a major international center for trade. *Houston 2000: People, Opportunity, Success* also captures many of the technologies and industries that are driving Houston today and will likely play a big role in the future of the region. Among the famous Houstonians featured in the book are former President George Bush; astronaut Gene Cernan, the last man to walk on the moon (in front of the Apollo 17 spacecraft that flew him there); the legends of Houston medicine, Drs. Michael DeBakey and Denton Cooley; and rising technology stars like University of Houston scientist Dr. Paul Chu.
