

The Days of the Bitter End

Jack Engelhard's *The Days of the Bitter End* may well be the definitive word on the 1960s. This is a landmark book, masterfully evocative. Engelhard once again proves himself to be a truly great novelist in this beautifully crafted historical novel that recaptures an era that has left an indelible mark on our culture to this day. Read it and laugh, read it and weep, because it's all here, the way it was back then, the age of innocence soon to be shattered, but then reborn. This is what it was like to be young, every moment an adventure. Brilliant.
