

## Dispatch from Mallorca: The Benefits of Cultural Profiling

This dispatch includes visits to the rowdy German enclave of Arenal on the island of Mallorca and comments on the concept of ethnic stereotyping. The author warmly observes the cultural, political and lifestyle differences between the United States and Mallorca, the most popular resort island in the Mediterranean. Its a quick read but an excellent resource if you travel to or wish to know more about Mallorca. There is also a helpful explanation about why so many European men appear to be pregnant.
