

True To The Streets: F*ck love Im done trying

When do you know that you're in a true love situation? Is it when they lace your pockets up? Or when they put it down and got you screaming out I love you because they're hitting your spot. Everybody has their own definition of love, just like Ronnie Thompson. Ronnie thought her child's father, Saint was love. The love child, luxury car, clothes and tap-out sex had to be something like love. Only thing was Saint loved the street hustle more than he loved her... Ronnie's best friend, Katina is naive when it comes to sexy, hard n*ggas. Leo has stolen Kats heart, but her need for love has left her blinded by Leo's grimy ways. While she's so in love, Leo is about one thing. His money... Lissette and Zackaree have that young, hood love that every high school chick envies. In her eyes they have that forever type of love. But ain't no love in these streets so she might not get laced down for life. By the end of it all some will be left saying, f*ck love, while others gain a new found love for the hustle.
