

Drop City

The best-selling, PEN-Faulkner award-winning author of *The Tortilla Curtain*, T.C. Boyle is hailed as America's most imaginative contemporary novelist (*Newsweek*). In 1970, a California commune pulls up stakes and moves to the harsh interior of Alaska. The members establish Drop City, a back-to-the-land town, on a foundation of peace and free love. But their idealism cannot prevent tension from rippling through the group. The results are anything but predictable in this honest, surprising evocation of a time period and its enduring beliefs.
