

The Flynn City Egg Man

Easter 1969 is coming to the Appalachian town of Flynn City, and no one is more excited than, The Flynn City Egg Man. The eccentric peddler can finally make amends to the townsfolk for all his bad business dealings. He has a plan to have the best Easter ever, and hopefully the most profitable hawking his Easter goodies. It all turns sour, when, Sandy True, the queen bee of Flynn City High, and the schools popular head cheerleader turns up missing. The Egg Man becomes the suspect in a town where suspicion is leveled at everyone. If that's not enough trouble brewed, Sandys jealous boyfriend Tyler plans to take matters into his own hands. A seventeen-year-old reluctant hero, Cuffy Landers, joins in the fray when he accidentally ends up with a letter of Sandys. Its contents will surely knock her from her throne. Cuffy befriends the Egg Man, but will it be enough to save him from Tylers wrath when he discovers Sandys class ring in the Egg Mans panel truck? This novel promises a page turning romp through Appalachia with rumors of kidnapping, murder, and mayhem in a part of the coal patch that everyone would love to leave. Just how far will some people go to escape the dying town? Recommended for readers of all ages. Adult/Young Adult Fiction
