

Floridas Paved Bike Trails

A comprehensive guide to the Sunshine States multi-use trails.-- Dwight Kingsbury, Florida Bicycle Association Florida has long needed a touring guide to our wonderful bicycle paths and multi-use trails. These colorful, accurate, in-depth descriptions provide those touring the trails with a historical, naturalistic perspective to add to their cycling experience.-- Linda Crider, president, Bike Florida Floridas Paved Bike Trails offers the most comprehensive guide available to more than 40 paved bicycle trails stretching from Pensacola Beach to the Florida Keys, with information on projects in progress or in the planning stages. Location maps and a geographical and historical description of each trail are included, as well as access listings of trailside facilities and parking and information on basic bicycle safety and bicycle shops. And, unlike other bicycling books, this guide also provides information about parks, beaches, lakes, recreational areas, wildlife refuges, historic sites, and museums along the trails or in close proximity to them. Offering safe and controlled routes to ride, this book will serve beginning bicyclists, families with children, and experienced road cyclists looking for trails on which they can maintain a steady pace unencumbered by traffic and intersections. It will also be useful for rollerbladers, skateboarders, joggers, and walkers, and it includes information about equestrian trails that exist alongside bike trails. As the only single source of information on all the bike trails in Florida and an eco-tour guide to these routes, Floridas Paved Bike Trails is a must for everyone who enjoys the parallel pleasures of cycling and sightseeing. Jeff Kunerth has been a reporter with the Orlando Sentinel for more than 20 years. He is co-author of Georgia Adventures: One-Day and Weekend Getaways. He and his wife, Gretchen, have

together bicycled thousands of miles in Florida and Georgia since the early 1980s.
