

Golf Is Crazy

Within two or three holes, golf can drive anyone crazy. When someone who already suffers from loose thinking gets involved, anything can happen. Keven Turner is a young American pro visiting Scotland. He encounters Oscar Brown, the aforementioned loose thinker. He also finds a pretty young lass from northern Scotland. His caddie Foot is distracted by a doubtful business deal. And oh yes, Kevin is playing in the Open Championship, the oldest major tournament in golf, at the oldest and most venerated course in the world, St. Andrews. The castle bottle dungeon also comes into play. This is a golf story that took place before the turn of the last century, when change was slower, before metal woods, before Tiger Woods, and before some of the greats exited the game.
