

Gourmet Ghosts - Los Angeles

Gourmet Ghosts - Los Angeles is a fun history/mystery food guide that features 274 pages of ghosts, murders and odd events at over 40 bars and restaurants in Hollywood, West Hollywood & Beverly Hills, Mid-City, Downtown, Westside & Beaches and Off The Menu. Illustrated with photos, newspaper clippings, eyewitness accounts and never-before-published pictures and stories (as well as food/drink ideas), its a look into L.A.s past that learns many of the tales are based on real events: Glovers Ghost at Yamashiro, La mujer sin cabeza (the Headless Woman) at Musso & Frank, The Night Watchman at Springs Arts Tower, Millie at the Paradise Cove in Malibu, and James Z. Oviatt, still haunting the building that killed him.
