

He Who Dares: Book One (The Gray Chronicals 1)

For Mike Gray, his life was a series of mysteries and unanswered questions. Even the man who raised him, his paternal grandfather, was a question mark. Beyond the love, understanding, and nurturing lay the unanswered question of why a disgraced ex-Royal Naval Admiral would pull himself out of a bottle and take upon himself to bring a one-year-old child home and raise him as his own. The question of why his family, the Tregallion clan, refused to come to his aid went unanswered. Even so, between them they build a life for themselves until the fateful day he died. After that, Mike fled across the stars, swearing he would never again take the responsibility for another person's death. Fate and destiny had other ideas, plunging him into one situation after the other where he had to take command, and decide the fate of others. With war on the horizon, and the future of the free stars hanging in the balance, Mike reluctantly accepted his destiny, and the part he must play. For better or worse, he would find the answers to his questions, and make those responsible pay a terrible price.
