

Insignificant Moments: A Love Story

For twenty-seven-year-old Jaye Logan, life has been full of neglected opportunities and missed chances. He's had an incredibly unadventurous career as an assistant librarian and only one serious girlfriend. But on the day he decides to literally climb a mountain and seek something better in life, something better finds him instead. That glorious day, Jaye rescues a beautiful young woman and realizes he's just met the girl of his dreams. In the turmoil surrounding her rescue, though, he doesn't even ask her name. She slips through his fingers--another casualty of his too cautious life. Reeling from disappointment, Jaye writes a simple yet heartfelt e-mail about the key to life and sends it winging into the ether. When that same inspirational e-mail returns to his inbox three years later--after impacting people around the world--Jaye is at another crucial intersection in life. The e-mail reminds him of what he lost, and he embarks on a life-changing journey to find it again, a journey full of adventure, mystery...and maybe even love. In the tradition of Nicholas Sparks, *Insignificant Moments* speaks to the profound impact a single moment can have on our lives and in our hearts.
