

Dubliners (Compass Edition, No. C41)

The remarkable collection of stories that make up *Dubliners* was described by Joyce himself as a series of chapters in the moral history of his community; and the arrangement of the tales reveals a progression from childhood to maturity, broadening from private to public scope, as Harry Levin noted in his introduction to *The Portable James Joyce*. While the geographic boundary of these fifteen stories may be middle-class, catholic Dublin, the artistic boundary is set only by Joyces far-reaching genius.
