

BEYOND ALL LIMITS: A Mark Cole Thriller

The USS Gerald R. Ford is Americas newest and most powerful aircraft carrier, an incredible mobile weapons platform that can spread US influence across the globe. But just as she is about to enter joint exercises with the Chinese navy, there is a military coup which results in a new Chinese government led by the megalomaniacal General Wu, who immediately orders the launch of the feared Eastern Wind anti-ship missile. The strike leaves the US carrier crippled in the middle of the East China Sea, her crew of thousands held hostage by further missile strikes. The US military is unable to respond, leaving China free to attack and reclaim Taiwan, with other nations also in Wus sights. Due to the threat of nuclear reprisals, US President Ellen Abrams cannot order a conventional military response, and so she calls on Force One, a shadowy covert action group led by Mark Cole, to avert this global catastrophe. Against tremendous odds, Force One must infiltrate China, a police state home to the worlds largest standing military, and rescue the remaining members of her old government from the depths of Beijings Forbidden City, while Cole also tries to assassinate General Wu. But when the situation further deteriorates, rumors of the secret Great Wall project are confirmed - under the remote Taihang mountains is a five thousand mile tunnel network hiding Chinas huge nuclear stockpile, which Wu now controls. And Cole knows that if he doesnt stop the man in time, it wont be just the crew of the USS Ford that is at risk; the whole world will be threatened with total annihilation.
