

Monterey Peninsula: The Golden Age

From the building of Hotel Del Monte in 1880 to the completion of the Pacific Coast Highway in 1937, connecting the peninsula to the redwood forests of Big Sur and San Simeon beyond, the history of the Monterey Peninsula is the story of the development of a collection of coastal communities-each with its own unique character. Captured here in over 200 vintage images is the heritage of these seaside communities and their role in the peninsula's history. The Monterey Peninsula is home to some of the most famous (and most photographed) shoreline in the world. Pictured in this book is the peninsula's golden era, explored through images that document the growth of Carmel, Pacific Grove, Monterey, Pebble Beach, Point Lobos, and Big Sur. Here you will find rare photographs of Cannery Row, the mission at Carmel, the bathhouse at Lovers Point, the bridges of the Pacific Coast Highway, the cottages of Carmel, the adobes of Monterey, and the cypress trees of Pebble Beach. Included in these pages are images from the author's collection as well as from the Monterey Public Library and Carmel's Harrison Memorial Library. Many of these have never been published.
