

Out of My Mind

One of the most important science fiction authors. Brunner held a mirror up to reflect our foibles because he wanted to save us from ourselves.--SF SiteFor each generation, there is a writer meant to bend the rules of what we know. Hugo Award winner (Best Novel, STAND ON ZANZIBAR) and British science fiction master John Brunner remains one of the most influential and respected authors of all time, and now E-Reads is pleased to re-introduce many of his classic works. For readers familiar with his vision, its a chance to re-examine his thoughtful worlds and words, while for new readers, Brunners work proves itself the very definition of timeless.In OUT OF MY MIND, John Brunner, in mid-career, selects a double-handful and more of what he considers his best work to date, thirteen stories that represent--under the three categories in which he classifies them: Past, Present, Future--his most challenging and entertaining stories, from present-day fear of nuclear annihilation to a loving, yet also terrifying infinite loop in time that includes a sideways step outside the universe as we know it. Put yourself in the hands of a master and take your imagination for a series of thrill-rides.
