

Pennsylvania Lumber Museum (Pennsylvania Trail of History Guides)

A century ago, the forests of northcentral Pennsylvania provided white pine and hemlock timber for much of the United States, and the region boasted two of the worlds largest sawmills. The Pennsylvania Lumber Museum recreates those boom years and shows the daily operation of a lumber camp. This guidebook offers a survey of the lumber industry in Pennsylvania, a background on its activity in northcentral Pennsylvania, and a tour of the museum and its grounds.
