

Point of Impact: Net Force 05

From the #1 New York Times bestselling creators of Op-Center comes a different kind of law enforcement. In the year 2010, computers are the new superpowers. Those who control them, control the world. To enforce the Net Laws, Congress creates the ultimate computer security agency within the FBI: the Net Force. It's the rich mans drug of choice and its being sold on the Internet for a thousand dollars per capsule. A potent mixture of smart drugs, psychedelics, angel dust, and steroids, it can turn a fifty-year-old into a raging beast of aggression and sexual desire. Now, its up to the Net Force to find the source of this dangerous designer drug. Before another rape. Before another murder. Before every user self-destructs. A powerful examination of Americas defense and intelligence systems of the future, Tom Clancys Net Force is the creation of Tom Clancy and Steve Pieczenik.
