

## Do You Remember The First Time?

As her best friend, Tashy, cuts into her wedding cake, 32-year-old Flora realises she is disillusioned with life. Suddenly her well-paid job, cosy flat and stable relationship with sensible Olly dont amount to a whole lot. Flora wants to be 16 again. She closes her eyes and wishes. Her wish has come true. Waking up the next morning is a shock. But now Flora has the chance to right some wrongs. Trading crows feet for pimples, love handles for a torso Britney Spears would kill for and dull dinner parties for house parties where White Lightning and snogging are the order of the day, Flora revels in a life where things are far less complicated and just much more...fun. Its not all laughs, though. Will what she does change the future? How can she get back to the present and her ordinary life? And does she even want to?
