

So You Are Thinking of Going To New Brunswick, Nova Scotia & Prince Edward Island

Pirates and privateers. Rum runners and a rum soaked Major. Hikes to the Skyline and to the bottom of the ocean. Dairy farmer fiddlers and cannon in citadels. These were just a few of the surprises when we visited New Brunswick, Nova Scotia and Prince Edward Island on a driving trip of nearly 3300 miles over 19 days. The Chapters in this travel book include daily driving directions (and some maps), city and country activities and some restaurant and food suggestions. At the end is an overall itinerary with daily activities and contact information for inexpensive lodging (mostly B&Bs) where we stayed. Also covered are some details of Celtic music and history of these Maritime Provinces, including those pirates, privateers and rum runners. Many of our conversations with locals are also included, as meeting and learning from people is one of the best parts about travel. Over 90 photos woven into the text will give you a sense of the beauty and uniqueness of the delightful Maritimes. There is also a bonus prologue Chapter on Bar Harbor and Acadia National Park where we stopped to hike and break up the driving from New York. This book is all you need to plan a great road trip. You could do all three Provinces as we did or select one or two for a shorter trip. There are also some suggestions on extra activities and driving to extend your trip and where to take driving shortcuts or fly if you want to reduce the miles.
