

The crime of the Congo

The book was intended as an expose of the situation in the so-called Congo Free State (labelled a rubber regime by Conan Doyle), an area occupied and designated as the personal property of Leopold II of Belgium and where the serious human rights abuses were occurring. Indigenous people in the region were being brutally exploited and tortured, particularly in the lucrative rubber trade. In the introduction to *The Crime of the Congo* Conan Doyle wrote: I am convinced that the reason why public opinion has not been more sensitive upon the question of the Congo Free State is that the terrible story has not been brought thoroughly home to the people, a situation he intended to rectify.
