

The Man Who Mistook His Wife For A Hat: And Other Clinical Tales

OLIVER SACKS

*The Man Who Mistook
His Wife for a Hat*

“Dr. P was a musician of distinction, well-known for many years as a singer, and then, at the local School of Music, as a teacher. It was here, in relation to his students, that certain strange...”

THE MAN WHO MISTOOK HIS WIFE FOR A HAT brings together twenty-four of Oliver Sacks most fascinating and beloved case studies. The patients in these pages are confronted with almost inconceivably strange neurological disorders; in Sacks telling, their stories are a profound testament to the adaptability of the human brain and the resilience of the human spirit. Dr. Sacks treats each of his subjects with a deep respect for the unique individual living beneath the disorder. These tales inspire awe and empathy, allowing the reader to enter the uncanny worlds of those with autism, Alzheimers, Tourettes syndrome, and other unfathomable neurological conditions. One of the great clinical writers of the 20th century (The New York Times), Dr. Sacks brings to vivid life some of the most fundamental questions about identity and the human mind.
