

The Passions of Dr. Darcy

George Darcy is the second son of a wealthy landowner in Georgian Era England and, at 22, is considered to be a brilliant, rising star in England's field of medicine. However, Dr. Darcy refuses the easy, comfortable pathway and enlists as a physician with the British East India Company, embarking on a personal quest where he strives to change the face of medicine while yearning to fill the void left within his soul at the death of his twin. His search for family, enduring love, and lost companionship is a quest not wholly realized until his return to England and Pemberley after thirty years of amazing adventures. It is then that a new generation of family and friends that will heal the physician, and to his greatest surprise, where the true love of his life awaits.
