

The Stories of Erskine Caldwell

American master Erskine Caldwell's powerful classic stories of anger, humor, insight, and hope for the South. Author of some of the most widely banned fiction of the twentieth century, Erskine Caldwell had a talent for striking a nerve. In this collection of nearly one hundred stories, the full depth and scope of his talent is on display, including his trademark biting satire as well as his skill at rendering deeply moving portraits of his native South. In a career that spanned over six decades, Caldwell produced stories that serve to document a changing society, from the dehumanizing trials of the Great Depression through the transformative battle to desegregate the South. Taken together, his short fiction reveals a voice that remains essential for readers hoping to understand the American experience. This ebook features an illustrated biography of Erskine Caldwell including rare photos and never-before-seen documents courtesy of the Dartmouth College Library.
