

## Belly Timber

From the writers of Darkened Hills, Detour to Armageddon, and Night of the Living Dead comes a novel unlike any other... In the 1800s, ordinary people learned the secret of the Kala and undertook extraordinary measures to rid the earth of this evil. This is their story. For John McCormick, life on the Indiana frontier held nothing but promise. His settlement along the White River would soon become the crossroads of America. Friends and family from back in Ohio and other points east were all making plans to see what all the fuss was about in the newly-formed city of Indianapolis. Yes, things were good. John had his general store and his friend George Pogue had his blacksmith business. Claims were being staked and relations with the native Indians were amicable. The town was growing and nothing could be better or so he thought. In Ohio, an evil was brewing. The Lecky Family, a group of ruthless Mongolian nomads, had made their way to America and were practicing their cannibalistic religion of Kala with reckless abandon. No one was safe, not even John McCormick's family. After the vicious slaughter of John's brother Thomas and Thomas wife and children by the Leckys, John has no choice but to confront this evil head on. As each day passes, more and more people fall victim to the Kala Clans evil intent. With time running out, can John McCormick and his posse of frontiersmen find and defeat this notorious foe? Find out in Belly Timber.
