

Wilhelm Meisters Apprenticeship [Illustrated] (With Active Table of Contents)

Wilhelm Meisters Apprenticeship (German: Wilhelm Meisters Lehrjahre) is the second novel by Johann Wolfgang von Goethe, published in 1795-96. While his first novel, *The Sorrows of Young Werther*, featured a hero driven to suicide by despair, the eponymous hero of this novel undergoes a journey of self-realization. The story centers upon Wilhelm's attempt to escape what he views as the empty life of a bourgeois businessman. After a failed romance with the theater, Wilhelm commits himself to the mysterious Tower Society composed of enlightened aristocrats.

ABOUT THE AUTHOR: Johann Wolfgang von Goethe was a German writer, pictorial artist, biologist, theoretical physicist, and polymath. He is considered the supreme genius of modern German literature. His works span the fields of poetry, drama, prose, philosophy, and science. His *Faust* has been called the greatest long poem of modern European literature. His other well-known literary works include his numerous poems, the Bildungsroman *Wilhelm Meisters Apprenticeship*, and the epistolary novel *The Sorrows of Young Werther*. Goethe was one of the key figures of German literature and the movement of Weimar Classicism in the late 18th and early 19th centuries; this movement coincides with Enlightenment, Sentimentalism (*Empfindsamkeit*), Sturm und Drang and Romanticism. The author of the scientific text *Theory of Colours*, his influential ideas on plant and animal morphology and homology were extended and developed by 19th century naturalists including Charles Darwin. He also served at length as the Privy Councilor of the duchy of Saxe-Weimar.
