

Zodiac Stained Glass Pattern Book (Dover Stained Glass Instruction)

Inspired by astrologys sun signs, these original designs offer stained glass artists a treasury of imaginative patterns. In addition to several different patterns for each of the twelve individual signs, this collection includes a variety of designs that spotlight the entire wheel of the zodiac. Perfect for windows, suncatchers, and other glass crafts, these designs work equally well as graphics for print, textile, needlework, and other craft projects. Sixteen pages of color photographs present vivid images of the finished projects.
